

Announcement

Fly-In Venice 2024

from Thursday 6th - Sunday 9th June, 2024

The *Campanile di San Marco*. With a height of 98.6 m, this is the tallest building in Venice. Originally its spire served as a lighthouse for ships.

Ladies and Gentlemen,
Dear PA46 enthusiasts,
Dear members,

In 2024, the lagoon city of Venice and the surrounding islands will be waiting to impress us. It is supposed to be very expensive there, but there are many world-famous sights, including the grandiose *Teatro la Fenice*, one of the most important opera houses in the world.

Depending on the type of aircraft we will be landing at

Lido – LIPV (well-maintained grass runway)
or
Marco Polo – VCE.

Our hotel will be the Hyatt Centric – in a former glass factory.

On Murano near Venice there is glass art of the greatest craftsmanship and creativity to be admired at *Barovier & Toso* since 1295.

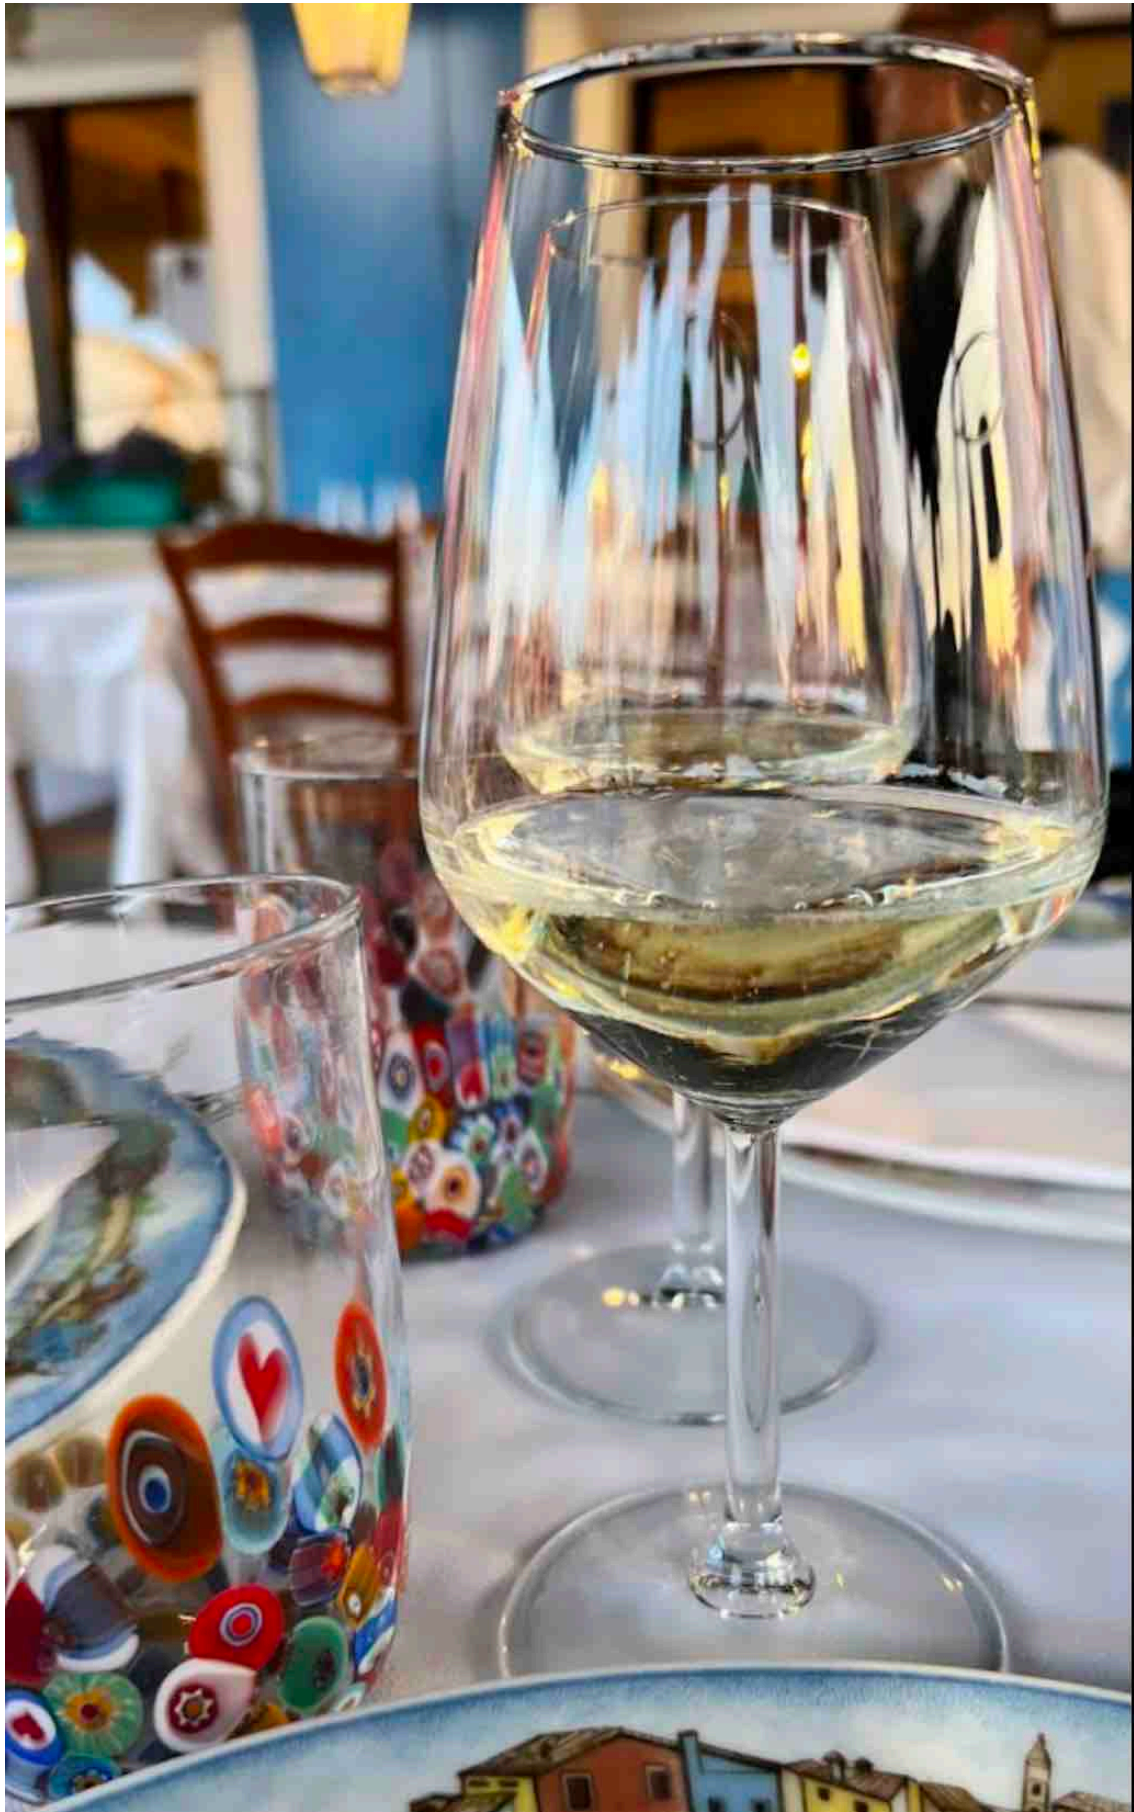

Murano consists of a total of 7 separate islands that are connected to each other by individual canals and bridges. The island has a total area of 1.5 square km and is home to 7,000 residents. People settled there in the 6th century when glassblowing was already one of the most important trades.

A visit to St. Mark's Basilica and the Doge's Palace is planned.

A ride in a gondola is also planned.

And, of course, you will also be spoiled with culinary delights as usual.

We look forward to seeing many of you there!

Invitation, program and registration options will follow later.

As always -
blue skies, tailwinds and happy landings

Wilhelm Schröer
