

Announcement

Fly-In to Mougins, Cote d'Azur

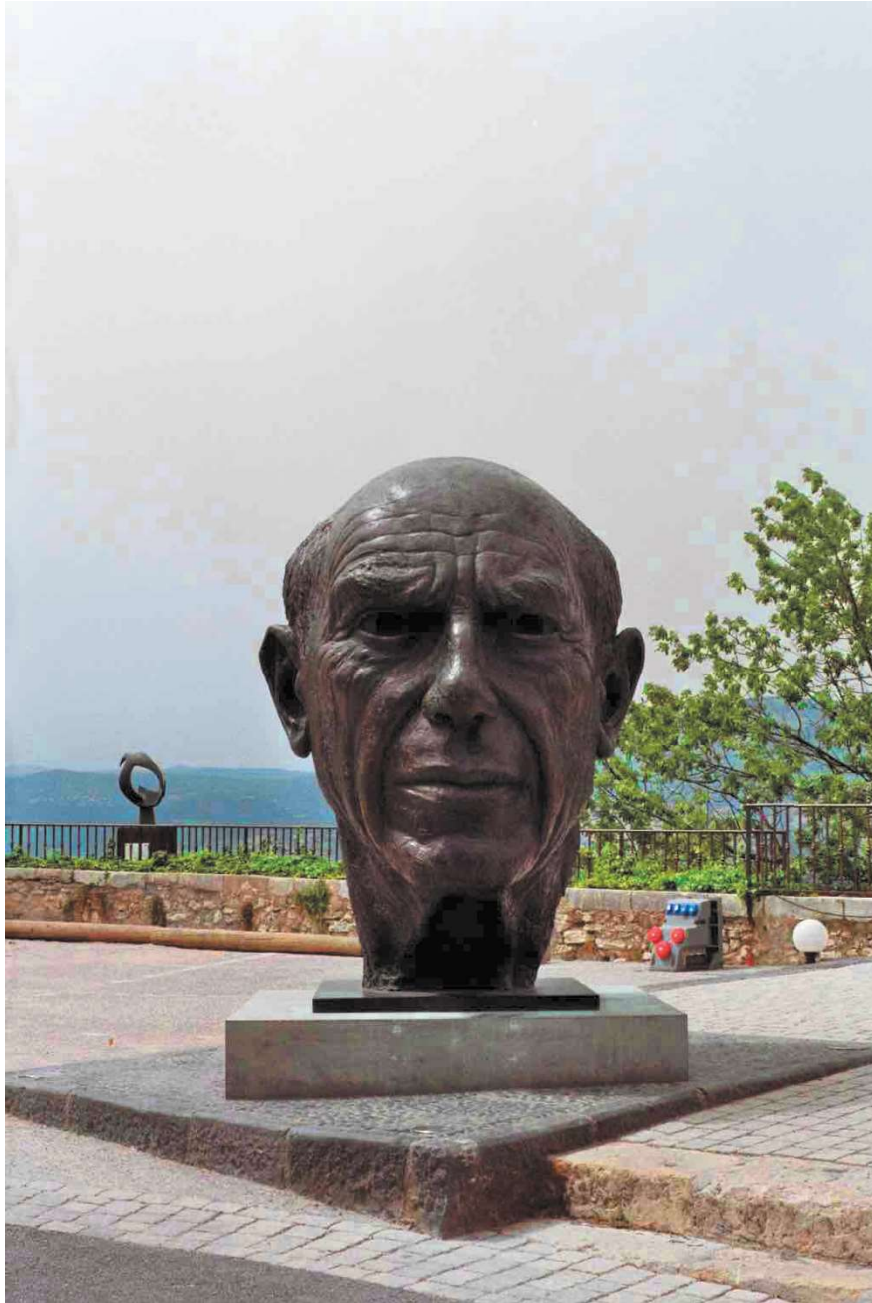

from Thursday, 4th - Sunday, 7th June 2020

"Honi soit qui mal y pense"

Dear Sir or Madam,
Dear PA46 enthusiasts,
Dear members,

In 2020 the little artist town of **Mougins**, located about nine kilometres to the north of Cannes on a conical free standing rock in the hinterland between Cannes and Grasse will be calling us.

This enchanting little town is best known as the last place *Pablo Picasso* lived for many years, as well as for its galleries and gastronomy.

Our airport is Cannes-Mandelieu - LFMD.

We have reserved beautiful rooms for you at the fantastic 5 Star hotel ***Le Mas Candille***, located on a slope and with a fantastic view.

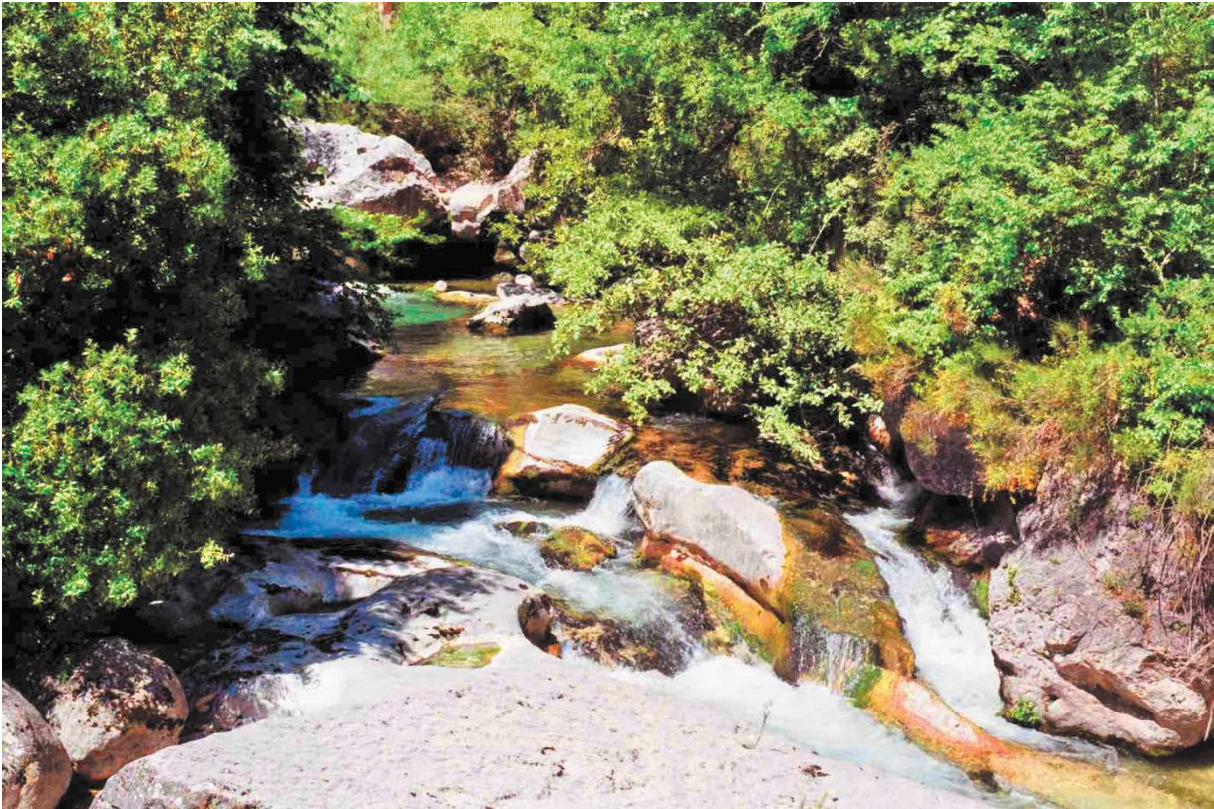

The hotel's Michelin-starred gourmet restaurant is, among other things, on a wonderful terrace under the pines with views of Grasse in the distance.

After a culinary journey through the Provençal cuisine, you can take a stroll through the historic town centre, for example, or round off the day together with your aviation friends.

But this is not the only special place. Our excursions will also take us to *St. Paul de Vence*. This is where *Marc Chagall* lived and worked for 20 years from 1966.

As an alternative to visiting *St. Paul-de-Vence*, we will once again be offering you the chance to go **canyoning**. This time in the valley of the *Gorges du Loup*. A team of qualified and certified guides will accompany the sportsmen and women. You only need to bring swimwear and sneakers. The neoprene suits and safety equipment will be provided by the local organizer.

And don't forget - anticipation, good mood and fun!

The *Fondation Maeght*, a modern art museum, will certainly broaden your artistic horizons.

The *La Colombe d'Or* guest house used to be popular with *Chagall* and with sketches by famous guests such as *Matisse*, *Calder* and *Picasso* it now resembles a museum.

Look forward to a special get together with PA46 friends and save the date!

As always -
blue skies, tailwinds and happy landings
